WE'RE GOING LOCO!

LOCOMOTIVE THAT IS, AND

WE

NEED

YOUR

HELP!

We are going to create a locomotive type towing vehicle for our train cars. The first step is to come up with the vehicle itself. If you have, or know of, a smaller type vehicle that was originally designed to tow something, we want to hear from you! Bill Mills has offered his service department during the slow time this winter to work on a suitable candidate so it needs to be in reasonable shape. If it's in excellent shape that is a plus! If you have a possible candidate contact Helen Budinger to arrange to have it evaluated. John Foster has offered his shop space and help to design and create the shell to attach to the vehicle. If you'd like to research ideas, be part of the design team or be part of the hands on building crew, contact John Foster. I plan to use this for a Rotary Photo Essay and could use some ideas. We are going to need a coming out party or event... What else? There is probably a spot for everyone on this project so let's all get involved!
