Long, long ago...

our club had an awesome engine to pull our train cars. We no longer have that engine because we used it so much we wore it out. It's way past time to come up with a pulling device for the train cars that looks like an engine. Surely there are enough resources in this club to pull this off! Family Center is offering mechanical services. John Foster is offering tools and building space. All we need to get started is a suitable small tractor to use for a base to build on. Rotarians change the world every day, this should be an easy one!

DON'T SPEND A DIME!
Happy Bucks
 will be collecting dimes in June!

REMINDER! MOTHER'S DAY IS MAY 9
